

Teamsters Canada Rail Conference

As per April 5th union meeting the following is now effective as of May 5th at 1600

WHEN CALLED OUT OF YOUR POOL FOR CONDUCTORS.

This is ONLY applicable when called in STRAIGHT AWAY SERVICE or TCS SERVICE.

When the employee is called out of their pool, they will **HAVE THE OPTION** to place themselves back to their original position in their pool.

Example, I am 4 times out in the South Pool, as per calling procedures I am forced to go in the West Pool for a Straight Away Service trip, upon my return to Moose Jaw, I have the option to put my board placement to the original position in the South Pool, **any rest is absolute and will hold the members plug.**

In this case scenario, the employee was 4 times out in the South Pool after being called to go West, there were trains called to go South, upon the employees return to Moose Jaw his "original" position is now 1st out.

In order to place yourself in the original position, the employee MUST call the crew dispatcher within 2 hours.

If the employee has placed themselves back to their original position when they were not entitled to do so, the employee will lose their privileges to this provision for 3 months.

In Solidarity
Bill Pitts
Local Chairman Conductors
TCRC Moose Jaw
